At this point, the extent to which COVID – 19 may impact the global economy and our business is uncertain, but pandemics or other significant public health events could have a material adverse effect on our business and results of operations.

An investment in our securities involves various risks. An investor should carefully consider the following risk factors in conjunction with the other information in this report before trading our securities.

The provisions contained in our Articles of Incorporation include:

- the requirement of an 80% vote to make, adopt, alter, amend, change or repeal our Bylaws or certain key provisions of the Articles of Incorporation that embody, among other things, the anti-takeover provisions;

- the so-called business combination "control act" requirements involving the Company and a person that beneficially owns 10% or more of the outstanding common stock except under certain circumstances; and

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation

Overview

The Company current operations include leasing its office building located in Parkersburg West Virginia, Its principal source of cash and income is the interest it receives from notes receivables

In August 2020 the Company sold its oil and gas wells and mineral leases which were located in Ohio and West Virginia. The oil and operations for the periods included in this report are reflected as discontinued operations.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain of the Company's accounting policies require the application of judgment in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. These judgments and estimates are based upon the Company's historical experience, current trends and information available from other sources that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Deferred Tax Assets

Significant management judgment is required in determining the provision for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against net deferred tax assets. The future recoverability of the Company's net deferred tax assets is dependent upon the generation of future taxable income prior to the expiration of the loss carry forwards. At December 31, 2020, the Company had a deferred tax asset due to tax deductions available to it in future years. However, as management could not determine that it was more likely than not that the benefit of the deferred tax asset would be realized, a 100% valuation allowance was established.

Liquidity and Capital Resources

At December 31, 2020, the Company had current assets of $3,802,000 and current liabilities of $164,000.

Cash and cash equivalents totaled $27,000 at December 31, 2020 and $22,000 at December 31, 2019. New Concept's principal sources of cash are rent from the tenant occupying part of its building in West Virginia and interest from its notes receivable

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation by our management (with the participation of our Principal Executive Officer and Principal Financial Officer), as of the end of the period covered by this report, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosures.

There has been no change in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. There are inherent limitations to the effectiveness of any system of internal control over financial reporting. These limitations include the possibility of human error, the circumvention of overriding of the system and reasonable resource constraints. Because of its inherent limitations, our internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting. In making this assessment, management used the criteria set forth in *Internal Control - Integrated Framework -2013* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on management's assessments and those criteria, management has concluded that Company's internal control over financial reporting was effective as of December 31, 2020.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial report. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

In preparation for management's report on internal control over financial reporting, we documented and tested the design and operating effectiveness of our internal control over financial reporting. There were no changes in our internal controls over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) that occurred during the quarter ended December 31, 2020 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

See Item 10. Directors, Executive Officers and Corporate Governance for information on the independence of Directors and the standards of the NYSE American Exchange.

Item 14. Principal Accounting Fees and Services

The following table sets forth the aggregate fees for professional services rendered to the Company for the years 2020 and 2019 by the Company's principal accounting firm Swalm & Associates, P.C.:

Type of Fees	2020	2019
Audit Fees	$70,250	$69,000
Tax Fees	10,550	9,000
Total Fees	$80,800	$78,000

All services rendered by the principal auditors are permissible under applicable laws and regulations and were pre-approved by either of the Board of Directors or the Audit Committee, as required by law. The fees paid to principal auditors for services described in the above table fall under the categories listed below:

Audit Fees: These are fees for professional services performed by the principal auditor for the audit of the Company's annual financial statements and review of financial statements included in the Company's Form 10-Q filings and services that are normally provided in connection with statutory and regulatory filings or engagements.

Audit-Related Fees: These are fees for assurance and related services performed by the principal auditor that are reasonably related to the performance of the audit or review of the Company's financial statements. These services include attestation by the principal auditor that is not required by statute or regulation and consulting on financial accounting/reporting standards.

Tax Fees: These are fees for professional services performed by the principal auditor with respect to tax compliance, tax planning, tax consultation, returns preparation and reviews of returns. The review of tax returns includes the Company and its consolidated subsidiaries.

All Other Fees: These are fees for other permissible work performed by the principal auditor that does not meet the above category descriptions.

These services are actively monitored (as to both spending level and work content) by the Audit Committee to maintain the appropriate objectivity and independence in the principal auditor's core work, which is the audit of the Company's consolidated financial statements.

Financial Information Systems Design and Implementation Fees

Swalm & Associates, P.C. did not render professional services to the Company in 2020 with respect to financial information systems design and implementation.

Under the Sarbanes-Oxley Act of 2002 (the "SO Act"), and the rules of the Securities and Exchange Commission (the "SEC"), the Audit Committee of the Board of Directors is responsible for the appointment, compensation and oversight of the work of the independent auditor. The purpose of the provisions of the SO Act and the SEC rules for the Audit Committee's role in retaining the independent auditor is two-fold. First, the authority and responsibility for the appointment, compensation and oversight of the auditors should be with directors who are independent of management. Second, any non-audit work performed by the auditors should be reviewed and approved by these same independent directors to ensure that any non-audit services performed by the auditor do not impair the independence of the independent auditor. To implement the provisions of the SO Act, the SEC issued rules specifying the types of services that an independent auditor may not provide to its audit client, and governing the Audit Committee's administration of the engagement of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence. Accordingly, the Audit Committee has adopted a pre-approval policy of audit and non-audit services (the "Policy"), which sets forth the procedures and conditions pursuant to which services to be performed by the independent auditor are to be pre-approved. Consistent with the SEC rules establishing two different approaches to pre-approving non-prohibited services, the Policy of the Audit Committee covers pre-approval of audit services, audit-related services, international administration tax services, non-U.S. income tax compliance services, pension and benefit plan consulting and compliance services, and U.S. tax compliance and planning. At the beginning of each fiscal year, the Audit Committee will evaluate other known potential engagements of the independent auditor, including the scope of work proposed to be performed and the proposed fees, and the approve or reject each service, taking into account whether services are permissible under applicable law and the possible impact of each non-audit service on the independent auditor's independence from management. Typically, in addition to the generally pre-approved services, other services would include due diligence for an acquisition that may or may not have been known at the beginning of the year. The Audit Committee has also delegated to any member of the Audit Committee designated by the Board or the financial expert member of the Audit Committee responsibilities to pre-approve services to be performed by the independent auditor not exceeding $25,000 in value or cost per engagement of audit and non-audit services, and such authority may only be exercised when the Audit Committee is not in session.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and 2019, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2020 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCOAB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain and understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Transactions with and Balances Due from Related Parties

Description of the Matter

The Company has significant transactions and balances due from related parties. The Company performs an assessment as to whether substantially all the amounts due under these receivables are deemed probable of collection. When the Company concludes that it is not probable that it will collect amounts, the Company creates an allowance for the amount not probable of collection.

Auditing the Company's collectability assessment is complex due to the judgment involved in the Company's determination of the collectability of these receivables. The determination involves consideration of the terms of the receivable, whether the receivable is currently performing, and any security for the receivable.

How We addressed the Matter in Our Audit

We obtained an understanding of the Company’s controls over related party receivables and their collectability assessment. Our testing included, among other things, confirmation of the receivables, reviewing selected financial information of the related parties, reviewing collections and evaluating transaction documentation. The relevant financial statement accounts are notes and interest receivable from related parties and interest income from related parties.

Emphasis of Related Party Transactions

As described in the notes to the consolidated financial statements New Concepts Energy, Inc. and Subsidiaries has significant transactions with and balances due from related parties.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2020

NOTE A – BUSINESS DESCRIPTION AND PRESENTATION

The Company, owns approximately 190 acres of land located in Parkersburg West Virginia. Located on the land are four structures totaling approximately 53,000 square feet. Of this total area the main industrial / office building contains approximately 24,800 square feet of which as of December 31, 2020 approximately 16,000 of industrial area is leased for $101,000 per annum.

In August 2020 the Company sold its oil and gas wells and mineral leases which were located in Ohio and West Virginia. The oil and operations for the periods included in this report are reflected as discontinued operations.

The Company's ability to meet current cash obligations relies on cash received from operations and the collection of notes receivable, including a $3.6 million dollar receivable from a related party.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying consolidated financial statements follows:

Principles of Consolidation

The consolidated financial statements include the accounts of New Concept Energy, Inc. and its majority-owned subsidiaries (collectively, the "Company", New Concept or "NCE") and are prepared on the basis of accounting principles generally accepted in the United States of America "GAAP". All significant intercompany transactions and accounts have been eliminated. Certain accounting balances have been reclassified to conform to the current year presentation.

Depreciation

Depreciation is provided for in amounts sufficient to relate the cost of property and equipment to operations over their estimated service lives, ranging from 3 to 40 years. Depreciation is computed by the straight-line method.

Depreciation expense, which is included in operations, was $12,000, $18,000 and $43,000 for 2020, 2019 and 2018, respectively.

Segments

The Company operates one primary business segment: real estate rental. Segment data is provided in "Note J" to these consolidated financial statements.

On August 31, 2020 the Company sold its oil and gas segment which is now reflected as Discontinued Operations.

Revenue Recognition

Rental income for property leases are recorded when due from the tenant and is recognized monthly as it is earned.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Company considers all short-term deposits and money market investments with a maturity of less than three months to be cash equivalents.

Impairment of Notes Receivable

Notes receivable are identified as impaired when it is probable that interest and principal will not be collected according to the contractual terms of the note agreements. The accrual of interest is discontinued on such notes, and no income is recognized until all past due amounts of principal and interest are recovered in full.

Impairment of Long-Lived Assets

The Company reviews its long-lived assets and certain identifiable intangibles for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. In reviewing recoverability, the Company estimates the future cash flows expected to result from use of the assets and eventually disposing of them. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized based on the asset's fair value.

The Company determines the fair value of assets to be disposed of and records the asset at the lower of fair value less disposal costs or carrying value. Assets are not depreciated while held for disposal.

Sales of Real Estate

Gains on sales of real estate are recognized to the extent permitted by Accounting Standards Codification Topic 360-20, "Real Estate Sales – Real Estate Sales", ("ASC 360-20"). Until the requirements of ASC 360-20 have been met for full profit recognition, sales are accounted for by the installment or cost recovery method, whichever is appropriate.

Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification, ("ASC") No. 740, "Accounting for Income Taxes". ASC 740 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company's assets and liabilities result in deferred tax assets, ASC 740 requires an evaluation of the probability of being able to realize the future benefits indicated by such assets. A valuation allowance is provided for a portion or all of the deferred tax assets when there is an uncertainty regarding the Company's ability to recognize the benefits of the assets in future years. Recognition of the benefits of deferred tax assets will require the Company to generate future taxable income. There is no assurance that the Company will generate earnings in future years. Since management could not determine the likelihood that the benefit of the deferred tax asset would be realized, no deferred tax asset was recognized by the Company.

Recent Accounting Pronouncements

In December 2019, the FASB issued ASU 2019-12. *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes.* The amendments in this Update simplify the accounting for income taxes by removing certain exceptions from ASC 740. Also, the amendments in this Update simplify the accounting for income tax by requiring that an entity recognize a franchise tax (or similar tax) that is partially based on income as an income-based tax, requiring that an entity evaluate when a step up in the tax basis of goodwill should be considered part of the business combination, and other targeted changes. The effective date of the amendments is for fiscal years, and interim periods within those years, beginning after December 15, 2020. The adoption of the standard on January 1, 2020, did not have a material impact on our financial position and results of operations.

NOTE H – INCOME TAXES

At December 31, 2020, the Company had net operating loss carry forwards of approximately $8.5 million, which expire between 2021 and 2036.

Forms 1120, *U.S, Corporation Income Tax Returns,* for the years ending December 31, 2020, 2019, 2017 are subject to examination, by the IRS, generally for three years after they are filed.

The following table presents the principal reasons for the difference between the Company's effective tax rate and the United States statutory income tax rate.

	2020	2019	2018
Earned income tax at statutory rate	$ -	$ -	$ -
Net operating loss utilization	-	-	-
Deferred tax asset from NOL carry forwards	1,786	2,200	2,183
Valuation allowance	(1,786)	(2,200)	(2,183)
Reported income tax expense (benefit)	$ 0	$ 0	$ 0
Effective income tax rate	0.00%	0.00%	0.00%

The Company believes that it is more likely than not the benefit of NOL carryforwards will not be realized. Therefore, a valuation allowance on the related deferred tax assets has been recorded.
